

DO YOU EXPLORE?

Meet A NASA Scientist!

World Finals is a chance to explore: other creative ideas, other cultures, a college campus, and now... space! Visit NASA's E-Theatre and see the Earth as if you were looking from SPACE and learn lots of interesting facts from a NASA scientist that's here especially for you. It's a great chance to experience NASA's latest satellite technology and to view the planet in a way that few get to see! NASA will also have a booth at the Creativity Festival and will offer fun challenges at its classroom activities. These activities are fun, educational projects also led by a NASA scientist.

EXPERIENCE ALL NASA HAS TO OFFER:

- ✓ **CREATIVITY FESTIVAL FUN**
- ✓ **NASA SCIENCE ACTIVITIES**
- ✓ **E-THEATRE & SATELLITES**

Locations and times for activities and E-Theatre presentations TBA. Stay up-to-date by downloading our WF app "Omer's World" or by visiting www.odysseyoftheind.com/wf2018
